Ref. No. *Session 2024-25*

Date

Most of the departments follow lecture method technique as a teaching method for students. Approximately 70 to 80 percentage classes have been conducted by using this traditional teaching approach where a teacher delivers information through a spoken presentation to a group of students who listen and take notes. Lecture methods are effective for imparting a large amount of structured knowledge, providing an over view of topic, or introducing new concepts.
