PRIVATE CONSUMPTION GROWTH RISES FOR SECOND QUARTER IN A ROW

GDP growth tops outlook again, records six-quarter high of 8.2%

Q2 numbers come days before RBI's monetary policy panel meets Dec 3

Siddharth Upasani
New Delhi, November 28

THE ECONOMY continued to expand at a faster-than-anticipated rate in the July-September quarter, with GDP growth rising to a one-and-a-half-year high of 8.2 per cent on the back of double-digit growth in financial services and the real estate sectors. The manufacturing sector, too, expanded at the fastest pace in six quarters. Economists had broadly expected that the GDP growth would moderate to 7.3 per cent from 7.8 per cent in April-June.

with the Reserve Bank of India (RBI) having forecast a growth rate of 7 per cent. However, the growth rate unexpectedly rose for the fourth quarter in a row in July-September.

"The secondary (8.3 per cent) and tertiary sector (9.2 per cent) has boosted the real GDP growth rate in Q2 of FY 2025-26 to rise above 8.0 per cent," the Ministry of Statistics and Programme Implementation (MoSPI) said in a statement.

Within the secondary sector, the Gross Value Added (GVA) of manufacturing rose by 9.1 per cent, up from 7.7 per cent

DRIVEN BY MANUFACTURING, FINANCIAL SERVICES

in April-June, while construction sector growth edged down to 7.2 per cent from 7.6 per cent in the previous quarter.

The big jump in the manufacturing sector was also aided by a favourable base. In the second quarter of 2024-25, manu-

facturing growth was a mere 2.2 per cent. However, the construction sector had grown by 10.2 per cent in the previous quarter. **CONTINUED ON PAGE 2**
