5.2.2 Solid Waste Management:--

Our college has proper solid waste disposal mechanism. The process followed is based on following main points:--

1. Segregation of Solid and liquid waste materials.
2. Segregation of Plastic material from solid waste.
3. Biodegradable materials like waste food material, peels of fruits, leaves etc. are buried in a pit.
4. Needles, Cotton, Blood clots and waste materials of Zoology & Botany Labs. Are disposed With the help of Civil Hospital Baldwara , as per the agreement signed with Hospital Authorities.
5. Non-degradable plastic materials are collected and given to Junk man.
6. Used sanitary pads of girl students are disposed of in the sanitary vending machine & fly ash is disposed in the pit.

The Block Medical Officer,
Govt. Civil Hospital,
Baldwara, District Mandi H.P.

Subject: Regarding disposal of used syringes and bio-hazardous wastes.

Sir,

I am requested to you that the disposal of used syringes accumulated during our lab practical sessions at GC Baldwara. Ensuring the safe and proper disposal of these biohazardous materials is important to us. We have conducted several practical session during the academic year, resulting in the collection of a significant number of used syringes. To comply with health and safety regulations and to maintain a safe environment to our students, staff and local bodies, we seek your assistance in disposing of these materials appropriately.

Kindly provide us with necessary procedure or schedule for collection of these used syringes. We aim to ensure that all these syringes and biohazardous waste is handle in accordance with local; and nation health guidelines.

Thank you for your cooperation and support. We look forward to your response.

Principal
GDC Baldwara,
